Important information about personal representatives

The federal Privacy Rule requires First Choice VIP Care Plus to follow certain steps before it may provide access to your protected health information (PHI) to someone other than you. PHI is information about you that can reasonably be used to identify you and that relates to your past, present, or future physical or mental health or condition and the provision of health care to you or the payments for that care. First Choice VIP Care Plus will release PHI to your personal representative after we receive a document that supports their legal authority to make health care decisions on your behalf (for example, a valid power of attorney, guardianship, or other legal document). First Choice VIP Care Plus will also recognize as a personal representative an executor, an administrator, or a person recognized by law as having authority to act on behalf of a deceased member or the member's estate.

We care about your privacy

Information about your health is very personal. We are committed to protecting your privacy. Please read this form carefully. This form will need to be entirely filled out for it to be processed. This includes attaching legal documentation.

First Choice VIP Care Plus will not treat someone as your personal representative if we reasonably believe: (1) you may be subject to domestic violence, abuse, or neglect by the personal representative; (2) treating the person as your personal representative could put you in danger; or (3) in the exercise of professional judgment (for example, in a licensed professional's judgment), First Choice VIP Care Plus decides that it is not in your best interest to treat the person as your personal representative.

We care about your well-being

We care about your well-being. If we think your personal representative will misuse your health information, we will not give it to them.

A personal representative designation will remain in effect until the member, a court order, or a law revokes it.
